OBJECTIVE

Results-driven Angular and Ionic developer with 2.5 years of experience building high-quality web and mobile applications. Proficient in Angular, Ionic, Node.js, MongoDB, Firebase, and RxJS. Skilled in creating responsive UI/UX and scalable backend solutions. Strong problem-solver, collaborative team player, and committed to writing clean, maintainable code. Successfully completed 4 projects, eager to drive innovation in dynamic development environments.

EXPERIENCE

Junior Developer | Quadralyst Pvt. Ltd.
April 1, 2023 – Present as a Angular and Ionic Developer, I have played an integral role in designing and developing high performance web applications. I collaborate closely with cross-functional teams to create innovative software solutions, optimizing performance, scalability, and user experience. My hands-on experience with the latest technologies, combined with a passion for problem-solving, allows me to contribute meaningfully to every project.

Angular Developer Intern | The Stepping Stone (Training Institute)
Aug 14, 2022 – Feb 15, 2023 During my internship, I honed my development skills through practical, real-world project involvement. I contributed to the successful implementation of various features while gaining exposure to the entire development lifecycle, from concept to deployment. This opportunity enhanced my technical foundation and prepared me for a career in software engineering.

EDUCATION

Course/Degree	School/University	Score	Year
B.sc (Bachelor of Science)	Government College, Nagda	69%	2019-2022
HSC	Saraswati shishu Vidhya Mandir	68%	2016-2017
SSC	Saraswati shishu Vidhya Mandir	78%	2014-2015

TECHNICAL SKILLS

- Server Side : NodeJS, JavaScript.
- Client Side : HTML, CSS, SCSS, Bootstrap, JavaScript, TypeScript.
- Database : MongoDB, Firebase
- Frameworks :
  Front End : Bootstrap, Angular 14+, Angular Material, AnalogJS.
  Back End : Express, MVC.
- MongoDB : Mongoose
- Others : GitHub, VS Code, JSON Server, JWT, MS Office.

PROJECTS

PartyTambola

- Being aware of the specifications for the product.
- Developing the design mock-up in Adobe XD in collaboration with the mock-up team.
- Use Firebase to integrate the backend with Angular to create the user interface components for both web and mobile and manual testing is necessary to verify functionality.

MangoSteen

- Working closely with the team to understand the specific requirements of our users.
- Developing responsive UI elements using Angular to ensure a seamless experience across different devices.
- Connecting the front-end with the Firebase backend to enable data aggregation and management and manual testing is necessary to verify functionality.

Bhautiki Plus

- I translated design mockups into functional code using standard HTML and CSS, ensuring the app adheres to best practices.
- I built the UI components in Angular, making Bhautiki work seamlessly on both web and mobile devices.
- I implemented client-side validations in registration, login, and logout forms to guarantee smooth user interaction and accurate data entry.
- I performed thorough manual testing to confirm all functionalities of the app were working as intended.
- I actively identified and fixed any bugs that arose, contributing to a smooth and reliable learning experience for students.

GOWOW

- Working closely with the team to understand the specific requirements of our users.
- Developing responsive UI elements using Angular to ensure a seamless experience across different devices.
- Connecting the front-end with the Firebase backend to enable data aggregation and management.
- Thoroughly testing the application to ensure it meets the desired functionality and user experience.
