PROFESSIONAL SUMMARY

Results-driven Software Developer with 3+ years of experience building scalable web and mobile applications using **Angular, Ionic, Node.js, MongoDB, and Firebase**. Skilled in developing responsive UI/UX, integrating REST APIs, and optimizing application performance. Proven ability to deliver high-quality solutions in collaborative environments. Successfully contributed to multiple production-level projects with a focus on clean, maintainable code and user-centric design.

PROFESSIONAL EXPERIENCE

Software Developer

Quadralyst Pvt. Ltd. | Apr 2023 – Present
* Developed and maintained high-performance web applications using **Angular and Firebase**
* Built reusable UI components, improving development efficiency and consistency
* Integrated REST APIs and optimized frontend performance for better user experience
* Collaborated with cross-functional teams to design scalable and user-friendly solutions
* Identified and fixed bugs, improving application stability and reliability

Software Developer Intern

The Stepping Stone (Training Institute) | Aug 2022 – Feb 2023
* Assisted in developing real-world web applications using **Angular and JavaScript**
* Gained hands-on experience in the complete software development lifecycle
* Implemented UI features and improved responsiveness across devices
* Supported debugging and testing processes to ensure smooth functionality

EDUCATION

Course/Degree	School/University	Score	Year
B.sc (Bachelor of Science)	Government College , Nagda	69%	2019-2022
HSC	Saraswati shishu Vidhya Mandir	68%	2016-2017
SSC	Saraswati shishu Vidhya Mandir	78%	2014-2015

TECHNICAL SKILLS

- Frontend :- Angular (14+), Ionic, HTML, CSS, SCSS, Bootstrap
- Backend :- NodeJS, JavaScript.
- Database:- MongoDB, Firebase
- Tools:- GitHub, VS Code, JSON Server, JWT, REST APIs.

PROJECTS

PartyTambola
Tech: Angular, Ionic, Firebase

- Being aware of the specifications for the product.
- Developing the design mock-up in Adobe XD in collaboration with the mock-up team.
- Use Firebase to integrate the backend with Angular to create the user interface components for both web and mobile and manual testing is necessary to verify functionality.

MangoSteen
Tech: Angular, Firebase

- Working closely with the team to understand the specific requirements of our users.
- Developing responsive UI elements using Angular to ensure a seamless experience across different devices.
- Connecting the front-end with the Firebase backend to enable data aggregation and management and manual testing is necessary to verify functionality.

Bhautiki Plus
Tech: Angular, Ionic, Firebase

- I built the UI components in Angular, making Bhautiki work seamlessly on both web and mobile devices.
- I performed thorough manual testing to confirm all functionalities of the app were working as intended.
- I actively identified and fixed any bugs that arose, contributing to a smooth and reliable learning experience for students.

GOWOW
Tech: Angular, Ionic, Firebase

- Working closely with the team to understand the specific requirements of our users.
- Developing responsive UI elements using Angular to ensure a seamless experience across different devices.
- Thoroughly testing the application to ensure it meets the desired functionality and user experience

Worked on several additional projects — you can explore more in my portfolio.
